

TT Weigh

TRAILER WEIGHING SYSTEM

A trailer weighing system for hydraulic tipping trailers.

Take control

Using a sensor to measure hydraulic pressure in the system, the TT WEIGH informs the operator of load as a 'calculated' weight in Tonnes, Kg or lbs.

In addition, when approaching and at the point of overload, an internal alarm will sound to further inform the operator of load status.

The TT Weigh is a cost-effective hydraulic weighing system providing an easy-to-use guide to trailer weight.

PROVIDES A FAST AND EASY TO USE INDICATION OF TRAILER WEIGHT

SUITABLE FOR ALL WEATHER CONDITIONS

NO REQUIREMENT TO MODIFY THE MACHINE

ENABLES CHECK-WEIGHING OF INCOMING AND OUTGOING GOODS

VALUE-ADDING SYSTEM FOR MINIMAL INVESTMENT

INCREASES VEHICLE EFFICIENCY

NATIONWIDE SERVICE AND BACK UP FROM TOPCON

LCD INDICATES LOAD AS A 'CALCULATED' WEIGHT WITH A BAR GRAPH OF LOAD STATUS

PROVEN TECHNOLOGY IN A ROBUST WATERPROOF ENCLOSURE SEALED TO IP67

ACCURATE MEASUREMENT OF LOAD

SUITABLE FOR ALL TIPPING TRAILERS

INITIAL AUDIBLE ALARM AT 90% OF PERMITTED LOAD WITH CONTINUOUS AUDIBLE ALARM AND FLASHING DISPLAY AT AND IN EXCESS OF 100%

QUICK AND EASY INSTALLATION

UNIQUE BRACKET ENABLES INSTALLATION OF THE INSTRUMENT IN ANY POSITION
